

# Final Evaluation The Graduated PhD students in 2013

April 2014

## Data in this report

The PhD School of Science has completed an evaluation of the study course for the 262 PhDs who graduated successfully from the PhD School between 1 January - 31 December 2013.

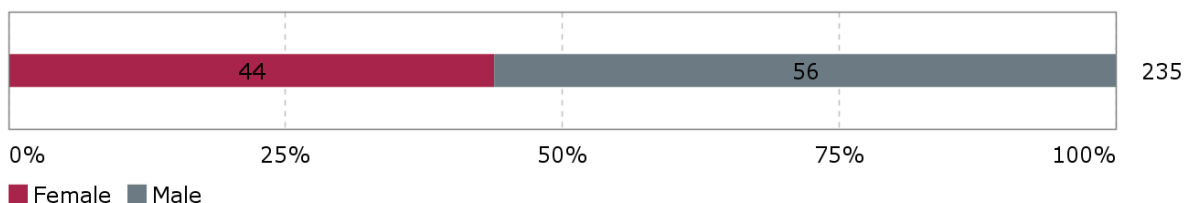

The majority of the graduated PhDs have received the evaluation questionnaire shortly after their PhD defence. The PhD School has not been able to contact all graduated PhD due to missing contact information. The number of respondents on the specific question is indicated by the number to the right of the column.

The data in this report is based on the respondents' answers to the final evaluation survey.

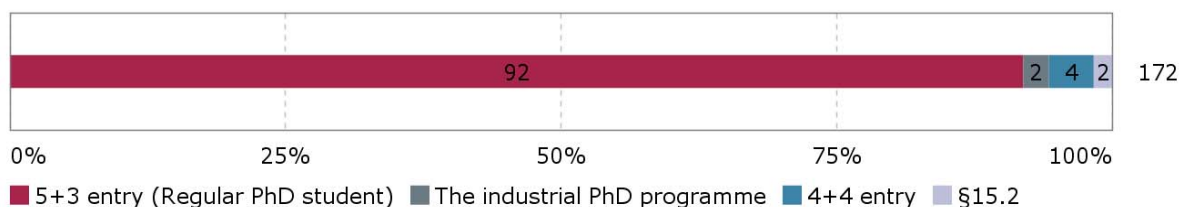

It has been agreed, at the PhD school of SCIENCE, that responses are sent to the relevant principal supervisor and head of department in a non-anonymous form. Only a few respondents have been dissatisfied with this. It should, however, be taken into consideration, when looking at the responses to the questionnaire.

## General information

### Gender

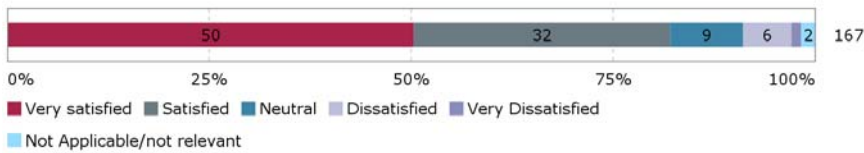

### Type of PhD programme

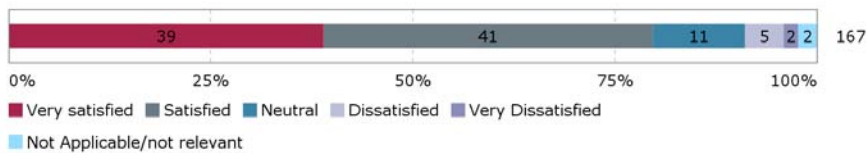

# The principal supervisor

## How satisfied or dissatisfied are you with:

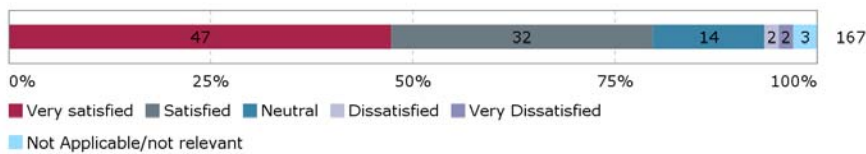

The amount of time spent on supervision of your PhD project by your principal supervisor?

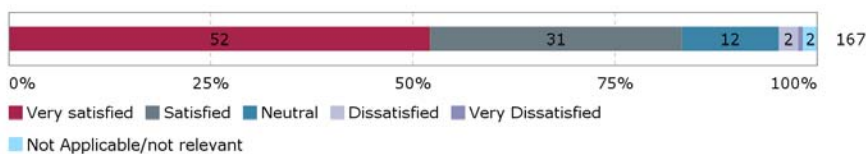

Your principal supervisor's guidance on structuring your PhD project?

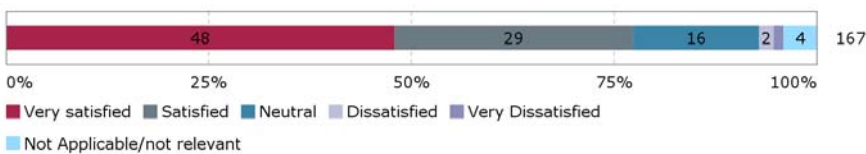

Your principal supervisor's guidance on your scientific problems?

Your principal supervisor's guidance on your oral and written communication?

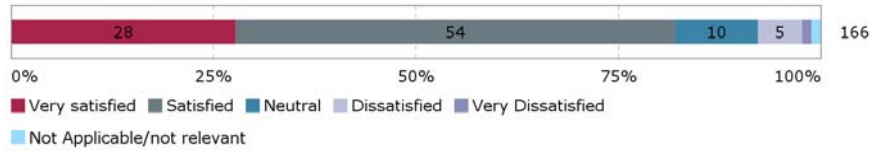

Your principal supervisor's mediation of contact to national and international networks?

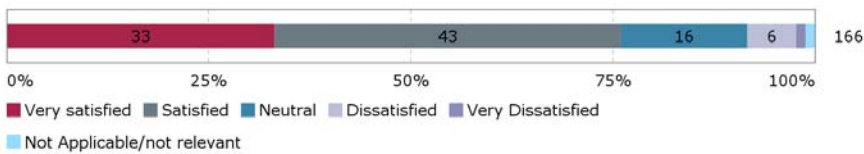

## The academic and social environment at the department

### How satisfied or dissatisfied are you with:

The academic environment at the department?

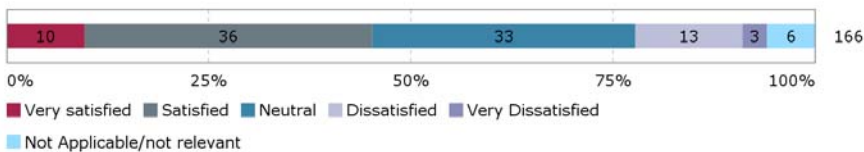

The social environment at the department?

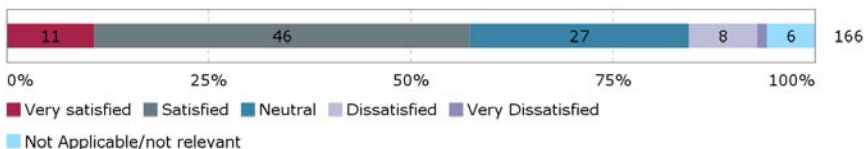

## Generic PhD courses - type 1 courses e.g. "Introduction to University Pedagogy", "Scientific Writing" etc.

### How satisfied or dissatisfied are you with:

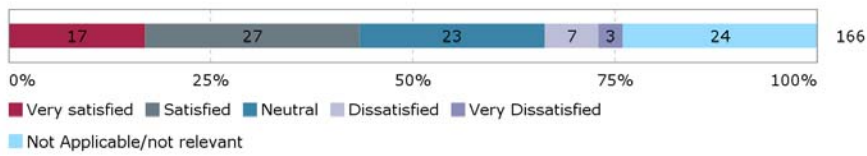

The variety of the generic PhD courses offered?

The academic content of the generic PhD courses offered?

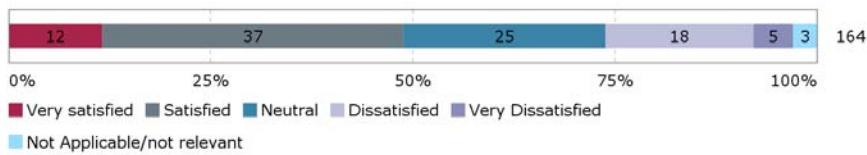

The mandatory course: "Introduction to University Pedagogy"?

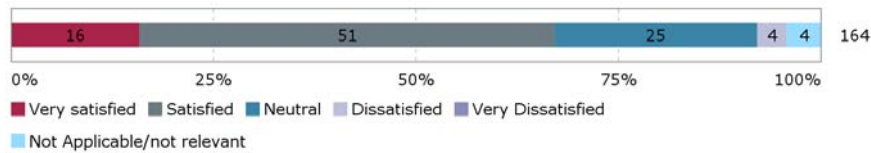

## Scientific PhD courses (type 2 courses)

How satisfied or dissatisfied are you with:

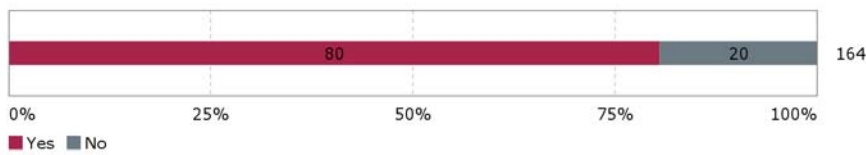

The variety of scientific courses offered?

The scientific standard of the courses offered?

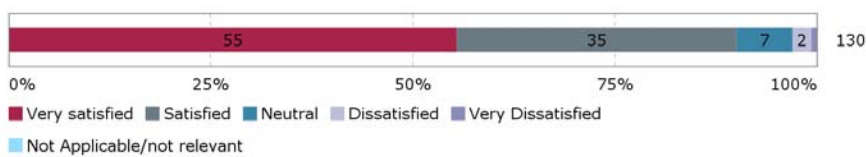

## Change of scientific environment during your PhD

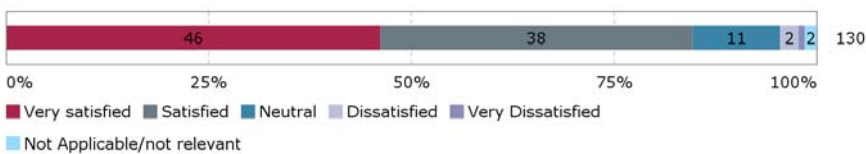

### How satisfied or dissatisfied are you with:

The relevance of the change of scientific environment for your PhD project?

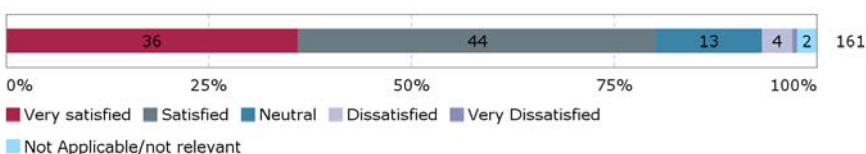

Your social and network-related achievement in connection with your change of scientific environment?

## Internationalization

### How satisfied or dissatisfied are you with:

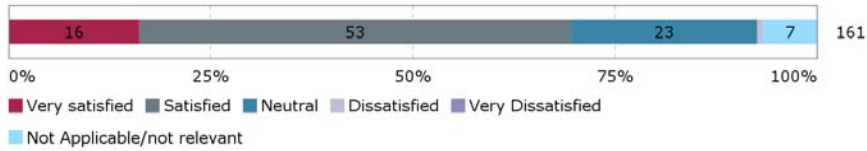

Your contact during your PhD to international research environments?

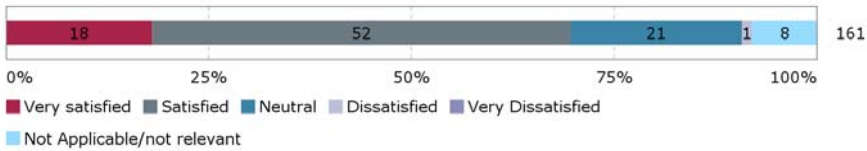

# Communication activities

How satisfied or dissatisfied are you with:

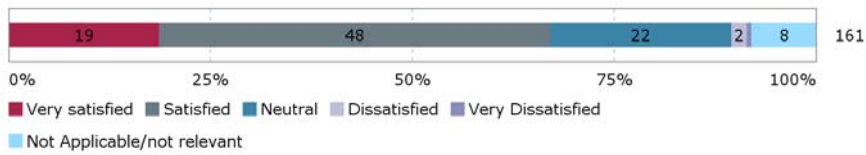

Your academic achievement from the communication activities?

The general relevance of your communication activities?

Your influence on planning your communication activities?

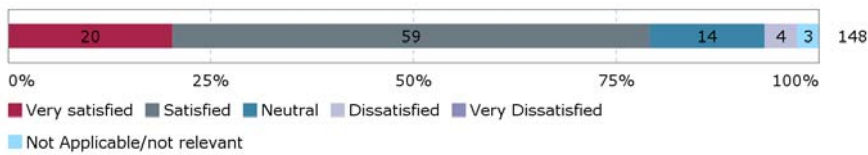

## Teaching activities

Did you participate in teaching activities:

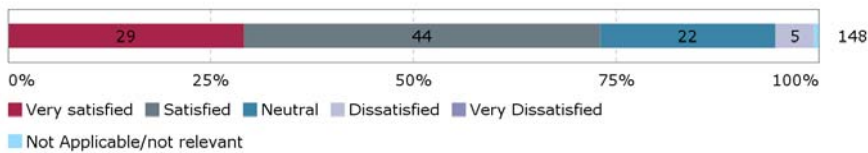

How satisfied or dissatisfied are you with:

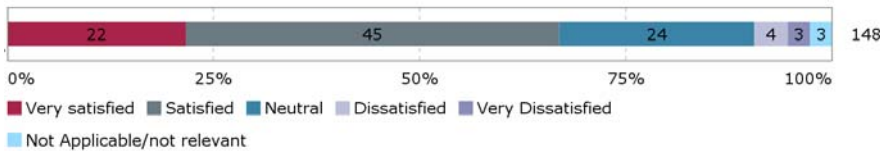

Your academic achievement from the teaching activities?

The general relevance of your teaching activities?

Your influence on planning your teaching activities?

## The importance of the PhD research

How many papers based on your PhD research have been published/accepted for publication in international peer-reviewed journals?

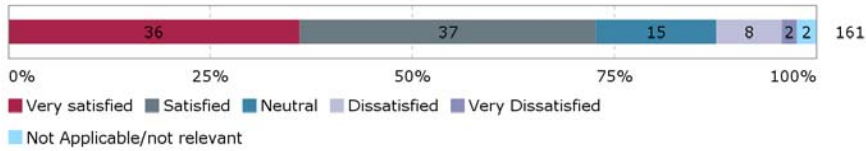

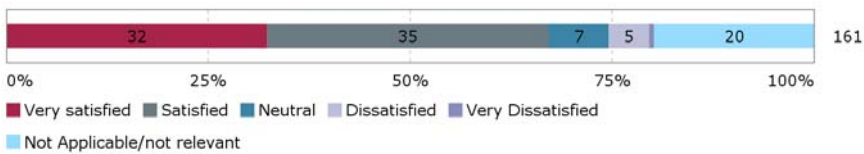

# Workplace, finances, administration etc.

## How satisfied or dissatisfied are you with:

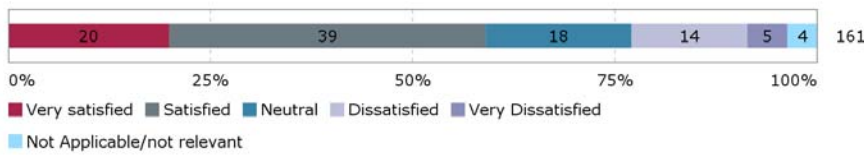

Your workspace and office situation?

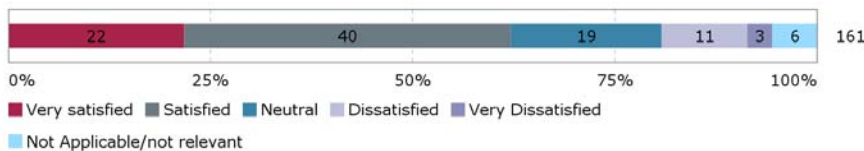

Your access to experimental facilities?

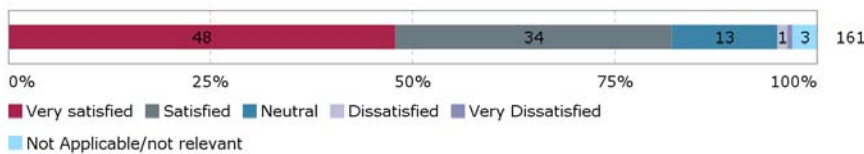

The IT facilities?

Your access to technical assistance?

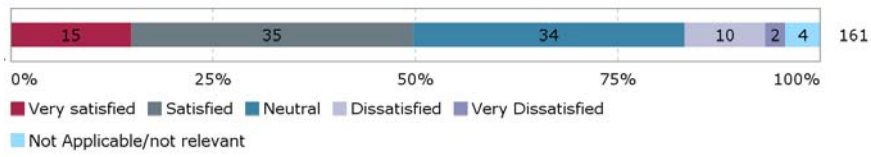

The availability of funding for your PhD project?

### The administrative support from your department?

### The administrative support from the PhD School of Science?

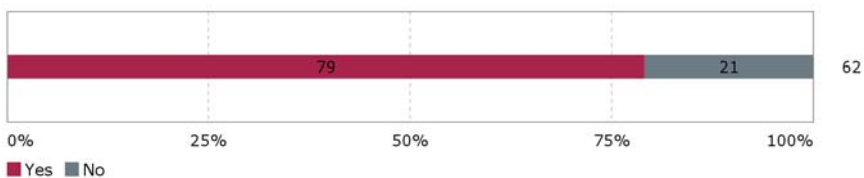

## Supplementary questions for international students

### Are you an international student?

### International Staff Mobility (ISM)

Do you know the International Staff Mobility Office (ISM) at the University of Copenhagen?

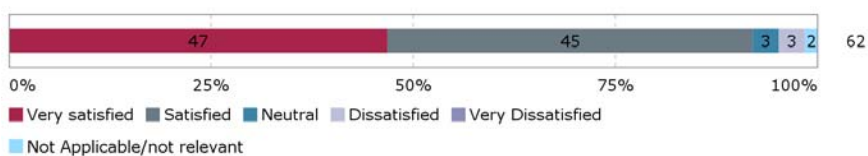

If yes:

Have you been in contact with ISM for guidance on your conditions of employment as a PhD student?

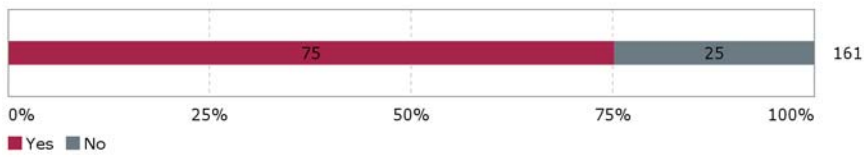

As an international PhD student, how satisfied have you been with being a PhD student at the Faculty of Science?

## Employment after the PhD

Have you found employment after the PhD:

## Type of employment
